If successful, an award of up to $6,000,000 could be received. The grant requires a 50% private and/or public match.
Councilman Eugene Nocera reads the resolution and moves to approve. Councilman Philip Pessina seconds the motion.

Councilman Nocera states that he fully supports this resolution. He asks Economic & Community Development Director Joseph Samolis to explain this resolution to the Councilmembers, including the purpose of this special meeting.

Director Samolis thanks Middlesex County Chamber of Commerce Vice-President Jeff Puglise for speaking in support of this resolution. He notes that the City’s Economic Development Specialist Tom Marano and Mr. Puglise have been doing yeoman’s work as he and General Counsel Brig Smith have been working on the Tax Incentive Workshop materials, as requested by the Council. This resolution is a requirement of the grant application. The grant is for revitalization of communities. Specifically, what they are looking to do is revitalize certain buildings on Main Street that are key to continued success downtown. He will review briefly so Councilmembers have some idea what they are looking to do. He will summarize the properties. The first property is 99 Union Street, which is the YMCA. The low income housing for men at the YMCA is in desperate need of a new HVAC system. They are looking to incorporate that request in this grant application. The second property is 545 Main Street. As discussed at the previous meeting, the tax incentive application and abatement ordinance that had been approved for workforce housing. They are looking for State grant to facilitate the rest of this development. He adds that as well as properties owned by Dominic DiMartino. Many Councilmembers know that he owns the building that was Shlien’s on Main Street as well as the three (3) buildings to the north of Sicily’s is to put it in context. Those properties are 418, 422, 428 and 584 Main Street. These projects are shovel ready. DECD (State Department of Economic & Community Development) is looking to distribute these funds fairly quickly within a month or two. They are looking for municipalities to move quickly on using these funds. The grant requires a 50 percent match, which is really a 1:1 match. Whatever we apply for, in this case up to $6M, there would be a required match of up to $6M. Earlier today, his office sent out letters from the three three (3) property owners or developers, indicating their commitment to make that 50 percent or a 1:1 match.

Honorable Common Council of Middletown,

The YMCA is grateful to be included in the City of Middletown’s DECD CT Communities Grant Program Application. If funded, the Northern Middlesex YMCA will install a new energy-efficient gas-powered HVAC system to serve our 62 Single Room Occupancy (SRO) Housing for low-income men. This 1.5 million dollar project will significantly improve livability and preserve this housing for future men in need.

The Northern Middlesex YMCA is prepared to meet the 50% grant match and has the resources to invest the $500,000 match required for a $1,000,000 grant award. We are honored to be included in this funding partnership and deeply committed to the goals and objectives of the DECD grant.

Dear Members of the Common Council:

I am writing today to affirm my commitment to the City of Middletown’s application to the CT Communities Challenge Grant Program.

I understand that the grant program requires a 50% match of private capital, and I hereby commit to that investment for my portion of the proposal.

I look forward to working with the city, the Middlesex County Chamber of Commerce, and other stakeholders, as we strive to make our city an even better place to live, work and play.

Should you have any questions regarding this letter or my commitment to this project, please contact me at dominick@demartinoinvestments.com.

Thank you very much.

Sincerely,

Dominick Demartino

Director Samolis continues, stating that these individuals will match dollar for dollar what they get from this Federal grant. There is no local municipal contribution; however, if the Council wants to grant additional incentives down the line, they can. The language allows that within the grant. For the record, each developer is required to match what they are given within this grant. is we do receive it. It’s a great program, noting it is the first of its kind. OPM (State Office of Policy & Management) has allocated $25M for this first round. The second round is slated for Spring. If we are not successful, we will submit an application in the next round. He believes that these projects are shovel ready, critical for downtown infrastructure rehabilitations. It reaches all part of our community, from the very poor to market residential, commercial elements and community elements all wrapped into this proposal. He thinks it is very well rounded. They are hopeful they will get the $6M from DECD for this grant. He is happy to answer questions.
The Chair calls on Councilman Grady Faulkner, Jr.

Councilman Faulkner asks what is DFC, what do they do.

Director Samolis replies that is the developer's licensed name. It is Dominic DiMartino, the developer that renovated and constructed Sicily Restaurant downtown. He has acquired the four (4) buildings that he mentioned before: 418, 422, 428, and 584 Main Street. He is looking to renovate these buildings to create additional commercial space as well as residential space.

Councilman Faulkner states it is good that they will be occupied. Thank you.

The Chair calls on Councilman Philip Pessina.

Councilman Pessina states he applauds the three (3) applicants, as well as Chamber Vice-President Jeff Puglise, the City's Economic Development Specialist Tom Marano, and the Mayor’s staff for trying to do this. This is a holistic approach to economic development downtown. When you bring residents downtown to live, to take part in the businesses, to produce the vibrancy of downtown. It is not just for our residents. Our downtown is a destination. He can go to bat with anybody that it's not. If they can get this grant and get the downtown development, he thinks we will go one more level. When they had Holiday on Main Street, they had over 6,000. Why? Middletown is on the cusp of doing great things and we are on the cusp again of making more apartments downtown, a great social mix for all socioeconomic levels for the betterment of the community, least of which are the business owners downtown, who will see a great influx of people. It's a holistic approach. Kudos to those who put this together, adding that it has his full support. Thank you.

The Chair states that there is much more that can be said He echoes the comments and thanks everyone. The timing of this could not be better and having the support of the Council will hopefully do a lot in helping to get this done.

There being no further discussion, the Chair calls for the vote. It is approved unanimously with 11 aye votes. (AYE: Councilmembers Blackwell, Carta, E. Ford, Faulkner, Gennaro, Loffredo, Mangiafico, McKeon, Nocera, Pessina, and Salafia; ABSENT: Councilman D. Ford). The matter is approved.

5. Meeting adjourned

Councilman Grady Faulkner, Jr. moves for adjournment. Councilman Philip Pessina seconds the motion. There being no discussion, the Chair calls for the vote. It is approved unanimously with 11 aye votes. (AYE: Councilmembers Blackwell, Carta, E. Ford, Faulkner, Gennaro, Loffredo, Mangiafico, McKeon, Nocera, Pessina, and Salafia; ABSENT: Councilman D.
