ZONING PROVISION
10.00 GENERAL PROVISIONS

10.00 GENERAL
Except as hereinafter specified, it shall be unlawful to use any land, structure or building or to construct, erect, structurally alter, enlarge or rebuild any building or structure or part thereof unless in conformity with the provisions of this Code. No use or occupancy of building, structure, land or premises and no trade or industry shall hereafter be permitted within the City of Middletown which will produce irritating, corrosive, toxic or noisome fumes, gas vapor, smoke, cinders, or odors or obnoxious dust or waste or undue noise or vibration so as to be detrimental to the public health, safety or general welfare. The provisions of this Code shall not require modifying or changing the height, location or size of any building now existing or any change in the construction or arrangement of any such building or any change in the present use of any building, structure or premises.

10.01 PURPOSE
The purpose of this Zoning Code and the intent of the legislative authority in its adoption is to promote and protect the public health, safety, convenience, comfort, prosperity and the general welfare of the City of Middletown, Connecticut; by regulating the use of buildings, other structures and land for residences, public facilities, institutions, business, services, industry, or other purposes; by regulating and restricting the bulk, height, design, per cent of lot occupancy, and location of buildings; by regulating and limiting population density; and, for the aforesaid purposes, to divide the land within the corporate limits of the city into zones of such number and dimensions in accordance with the objectives of the Plan of Development; and to provide procedures for administration and amendment of it.
10.02 INTENT
This Zoning Code is intended to achieve, among others, the following objectives: to protect the character and values of residential, institutional and public uses, business, commercial, and manufacturing uses—and to insure their orderly and beneficial development; and to provide adequate open spaces for light, air and outdoor uses; and to prevent overcrowding of the land; and to prevent excessive concentration of population—and, on the other hand, to prevent sparse and uncoordinated development; and to regulate and control the location and spacing of buildings on the lot and in relation to the surrounding property so as to carry out the objectives of the Plan of Development; and to regulate the location of buildings and intensity of uses in relation to streets according to plans so as to cause the least interference with, and be damaged least by traffic movements, and hence result in lessened street congestion and improved public safety; and to establish zoning patterns that insure economical extensions for sewers, water supply, waste disposal and other public utilities, as well as developments for recreation, schools, and other public facilities; and to guide the future development of the City so as to bring about the gradual conformity of land and building uses in accordance with objectives of the Plan of Development; and to accomplish the specific intents and goals set forth in the introduction to the respective parts.

10.03 APPLICATION OF ZONE REGULATIONS
Except as hereinafter provided, the following general regulations shall apply:

10.03.01 No building, structure, or land shall hereafter be used or occupied, and no building or structure or part thereof shall hereafter be erected, constructed, reconstructed, moved, or structurally altered except in conformity with all of the regulations herein specified for the zone in which it is located.
10.03.02 No building or other structure shall hereafter be erected or altered: to exceed the height or bulk; to accommodate or house a greater number of families; to occupy a greater percent of lot area; to have narrower or smaller rear yards, front yards, side yards, or other open spaces than herein required; or in any other manner contrary to the provisions of this Code.

10.03.03 No part of a yard, or other open space, or off-street parking or loading space required above or in connection with any building for the purpose of complying with this Code, shall be included as part of a yard, open space, or off-street parking or loading space similarly required for any other building.

10.03.04 No yard or lot existing at the time of passage of this amendment shall be reduced in dimension or area below the minimum requirements set forth herein. Yards or lots created after the effective date of this amendment shall meet, at least, the minimum requirements established by this Code.

10.03.05 No parking area, parking space, or loading space which exists on the effective date of this amendment or which subsequent thereto is provided for the purpose of complying with the provisions of this Code shall thereafter be relinquished or reduced in any manner below the requirements established by this Code, unless additional parking area or space is provided sufficient for the purpose of complying with the provisions of this Code within three hundred (300) feet of the proposed or existing uses for which such parking will be available.

10.04 SEPARABILITY CLAUSE
Each section of this Code and each part of such section are declared to be independent sections and parts of sections, and notwithstanding any other evidence of legislative intent, it is hereby declared to be the controlling legislative intent that if any provision of said sections, or the application thereof to any person or circumstance, is held invalid for any reason, the remaining sections or parts of sections and the application.
of such provision to any person or circumstance other than as to those to which it is held invalid, shall not be affected thereby, and it is hereby declared that this Code would have been passed independently of the section, sections or parts of a section held to be invalid.

10.05 PROVISIONS DECLARED TO BE MINIMUM REQUIREMENTS

In their interpretation and application, the provisions of this Code shall be held to be minimum requirements, adopted for the promotion of the public health, safety, moral, or general welfare. Wherever the requirements of this Code are at variance with the requirements of any other lawfully adopted rules, regulations, ordinances, deed restrictions, or covenants, the most restrictive or that imposing the higher standard shall govern.

In such case, this shall not be less than the average depth of said existing front yards on the two (2) lots immediately adjoining, or, in the case of a corner lot, the depth of the front yard on the lot immediately adjoining; provided, however, that the depth of a front yard on any lot shall be at least ten (10) feet and need not exceed fifty (50) feet.

B Side Yard Varied - Wall Not Parallel
Side yard width may be varied where the side wall of a building is not parallel with the side lot line or is broken or otherwise irregular. In such case the average width of the side yard shall not be less than the otherwise required least width; provided, however, that such side yard shall not be narrower at any point than one-half ($\frac{1}{2}$) of the otherwise required least width, or narrower than three (3) feet in any case.

C Side Yard - Corner Lot
A side yard along the side street lot line of a corner lot, which lot abuts in the rear, either directly or across an alley, the side lot line of another lot in a Residential Zone, shall have a width of not less than one-half ($\frac{1}{2}$) the required depth of the front yard on such other lot fronting the side street.

13.04.05 Steps, stoops and porches
Steps and uncovered stoops may extend into any minimum front or rear yard not more than nine (9) feet. On a corner lot having a minimum side yard twenty-five (25) feet or more in width, steps and open uncovered stoops, and porches may extend into such minimum side yard not more than nine (9) feet; but there shall be no encroachment upon the minimum side yard of a corner lot when such yard is less than twenty-five (25) feet in width, nor shall any other minimum side yard be encroached upon by such extensions. Enclosing or roofing of steps and open uncovered stoops, porches and outside open stairways which extend into the minimum required yards is prohibited.

Fire escapes may project not more than five (5) feet into front, side or rear yards.

SECTION 14
NON-CONFORMING BUILDINGS AND USES

14.01

INTENT
Within the zones established by the Zoning Code or amendments that may later be adopted there exist:
(a) lots,
(b) structures,
(c) uses of land and structures, and
(d) characteristics of use
which were lawful before this Code was passed or amended, but which would be prohibited, regulated or restricted under the terms of this Code or future amendment. It is the intent of this Code to permit these non-conformities to continue until they are removed, but not to encourage their survival. It is further the intent of this Zoning Code that any enlargement, expansion, extension or structural alteration of non-conformities after the effective date of this ordinance shall be limited and that non-conformities shall not be used as grounds for adding other structures or uses prohibited elsewhere in the same zone.

Non-conforming uses are declared by this Zoning Code to be incompatible with permitted uses in the zones involved; however, non-conforming uses and structures will be permitted to remain. The purpose of regulating them is to restrict further investment in non-conformities which are inappropriate to their location.

To avoid undue hardship, nothing in this Code shall be deemed to require a change in the plans, construction or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Code and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in per-
manent position and fastened in a permanent manner. Where excavation or demolition or re-
moval of an existing building has been substan-
tially begun preparatory to rebuilding, such
excavation or demolition or removal shall be
deemed to be actual construction, provided that
work shall be carried on diligently.

14.02
NON-CONFORMING LOTS OF RECORD
In any zone in which single-family dwellings are
permitted, a single-family dwelling and customary
accessory buildings may be erected on any single
lot of record at the effective date of adoption
or amendment of this ordinance, notwithstanding
limitations imposed by other provisions of the
Zoning Code. Such lot must be in separate owner-
ship and not of continuous frontage with other lots
in the same ownership. This provision shall apply
even though such lot fails to meet the requirements
for area or width, or both, that are generally ap-
plicable in the zone, provided that yard dimensions
and requirements other than those applying to area
or width, or both, of the lot shall conform to the
regulations for the zone in which such lot is lo-
cated. Variance of yard requirements shall be ob-
tained only through action of the Zoning Board of
Appeals.

If two or more lots or combinations of lots and
portions of lots with continuous frontage in single
ownership are of record at the time of passage or
amendment of this Code, and if all or part of the
lots do not meet the requirements established for
lot width and area, the lands involved shall be con-
sidered to be an undivided parcel for the purposes
of this Zoning Code, and no portion of said parcel
shall be used or sold in a manner which diminishes
compliance with lot width and area requirements
established by the Zoning Code, nor shall any
division of any parcel be made which creates a lot
with width or area below the requirements stated in
the Zoning Code.

14.03
NON-CONFORMING USES OF LAND (OR LAND WITH MINOR
STRUCTURES ONLY).
Where at the time of passage of this Code lawful
use of land exists which would not be permitted.
by the regulations imposed by the Zoning Code, and where such use involves no individual structure with a replacement cost exceeding one thousand ($1,000) dollars, the use may be continued so long as it remains otherwise lawful, provided:

14.03.01 Expansion
No such non-conforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Code, except with the approval of the Commission;

14.03.02 Moving
No such non-conforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this Code; except with the approval of the Commission;

14.03.03 Discontinuance
If any such non-conforming use of land ceases for any reason for a period of more than one (1) year, any subsequent use of such land shall conform to the regulations specified by the Zoning Code for the zone in which such land is located;

14.03.04 Additions
No additional structure not conforming to the requirements of the Zoning Code shall be erected in connection with such non-conforming use of land, except with the approval of the Commission.

14.04 NON-CONFORMING USES OF STRUCTURES OR OF STRUCTURES AND PREMISES IN COMBINATION
If lawful use involving individual structures with a replacement cost of one thousand ($1,000) dollars or more, or of structure and premises in combination, exists at the effective date of adoption or amendment of this Code that would not be allowed in the zone under the terms of this Code, the lawful use may be continued so long as it remains otherwise lawful, including subsequent sales of the property, subject to the following provisions:
14.04.01 Expansion

If any existing structure devoted to a use not permitted by this Code in the zone in which it is located is proposed to be enlarged, extended, constructed, reconstructed, moved or structurally altered except in changing the use of the structure to a use permitted in the zone in which it is located, then such enlargement, extension, construction, reconstruction, move or structural alteration shall be approved by the Commission on the City Plan and Zoning as specified in Section 14.02 of this Code.

14.04.02 Limitation

Any non-conforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Code, but no such use shall be extended to occupy any land outside such building, except with the approval of the Commission.

No expansion of a non-conforming use or structure, or combination thereof, shall exceed the boundaries (premises) than were occupied at the effective date of adoption or amendment of this Code.

14.04.03 Change of Use

If no structural alterations are made, any non-conforming use of a structure, or structure and premises, may as a special exception be changed to another non-conforming use provided that the Zoning Board of Appeals, either by general rule or by making findings in the specific case, shall find that the proposed use is equally appropriate or more appropriate to the zone than the existing non-conforming use. In permitting such change, the Zoning Board of Appeals may require appropriate conditions and safeguards in accord with the provisions of the Zoning Code.
14.04.04 Change to a Conforming Use
Any structure, or structure and land in combination, in or on which a non-conforming use is superseded by a permitted use, shall thereafter conform to the regulations for the zone, and the non-conforming use may not thereafter be resumed;

14.04.05 Discontinuance
When a non-conforming use of a structure, or structure and premises in combination, is discontinued or abandoned for twelve (12) consecutive months or for eighteen (18) months during any three (3) year period (except when government action impedes access to the premises), the structure, or structure and premises in combination, shall not thereafter be used except in conformity with the regulations of the zone in which it is located;

14.04.06 Restoration
Where non-conforming use status applies to a structure or to a structure and premises in combination, removal or destruction of the structure shall eliminate the non-conforming status of the land;

14.04.07 Moving
No non-conforming structure or structure and premises in combination shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this Code, except with the approval of the Commission.

14.04.05 REPAIRS AND MAINTENANCE
On any non-conforming structure or portion of a structure containing a non-conforming use, work may be done on ordinary repairs, or on repair or replacement of non-bearing walls, fixtures, wiring, or plumbing, of the non-conforming structure or non-conforming portion of the structure as the case may be, provided that such is approved by the Commission.

If a non-conforming structure or portion of a structure containing a non-conforming use becomes physically unsafe or unlawful due to lack of re-
pairs and maintenance, and is declared by any duly authorized official to be unsafe or unlawful by reason of physical condition, it shall not thereafter be restored, repaired, or rebuilt except in conformity with the regulations of the zone in which it is located.

Nothing in the Zoning Code shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official; however, such structural alteration shall in all cases be approved by the Commission on the City Plan and Zoning.

14.06 USES UNDER SPECIAL EXCEPTION PROVISIONS NOT NON-CONFORMING USES

Any use which is permitted as a special exception in a zone under the terms of this Code (other than a change through the Zoning Board of Appeals action from a non-conforming use to another use not generally permitted in the zone) shall not be deemed a non-conforming use in such district, but shall without further action be considered a conforming use.

14.07 CHANGE OF NON-CONFORMING USE CERTIFICATE

14.07.01 Request for Change of Non-Conforming Use
Applications for the grant of Change of Non-Conforming Uses shall be filed with the Commission on forms provided therefor. The applicant shall submit plans and other data required in Section 14.07.02.

Any proposed application for an expansion of a non-conforming use in excess of twenty-five (25) per cent of its cubic volume, shall be heard at a public hearing.

The failure of the Commission to act thereon within sixty (60) days of the filing of such application shall be considered as approval and a permit to that effect shall be issued by the Commission on demand. The grounds for the Commission's action shall be stated in its records.

14.07.05 Violation of Change of Non-Conforming Use Certificates
Whenever the Commission shall find, in the case of any Change of Non-Conforming Use granted pursuant to the provisions of this section, that any of the terms, conditions, or restrictions upon which such permit was granted are not being complied with, the Commission may rescind and revoke such permit after giving due notice to all parties concerned. Violation of a Change of Non-Conforming Use shall constitute a violation of the Zoning Code.

14.07.06 General Standards for Change of Non-Conforming Use
A Change of Non-Conforming Use Certificate may be granted when the Commission makes determinations on:

40.07 CERTIFICATE OF APPROVAL
To assure the safety and welfare of the community, an application for certificate of approval for off-street parking areas for more than ten (10) vehicles shall be submitted to the Planning Commission for review and approval before a Zoning Certificate is granted.

The Planning Commission shall also consider the location of light standards or other methods of illuminating the parking area and building, the location of traffic islands, and any planting materials within said islands, the location, height and type of screening materials which will be located along the property line and, in general, any conditions which might impair the welfare or safety of the general public using said facilities. Any such discontinuance of a parking or loading space shall constitute a violation of this ordinance.
40.09 APPEALS

In any case where off-street parking or loading space has been provided in compliance with the standards of this section and subsequently there is a change in the use of the property, or any other circumstance requiring that additional parking or loading space be provided, whenever the Commission shall find that the provisions of such additional parking or loading space would result in peculiar and exceptional practical difficulties to or undue hardship upon the owner of said property, the Planning Commission may modify the requirement for such additional parking or loading, provided such relief can be granted without substantial impairment of the intent or purpose of this section.

During that time application for Commission approval shall be made following these regulations. Operations for which approval application is not made and received shall be in violation of this Code.

41.05 PROCEDURE
The extraction proponent shall file an application to the Commission including required fee and compliance assurances. The Commission shall notify abutting property owners by certified mail and hold a public hearing concerning the application.

APPLICATION

Six identical copies of an application shall be submitted consisting of text and graphic material setting forth the proposal for extraction and reclamation, in terms of criteria set forth herein, for a proposed operating site. Upon such satisfactory reclamation the bond shall be released to the applicant.

SECTION 44

SPECIAL EXCEPTIONS

44.01 PURPOSE
The development and execution of a comprehensive Zoning Code are based upon the division of the City into zones with which the use of land and structures and the bulk and location of structures in relation to the land are substantially uniform. It is recognized, however, that there are certain uses and features which, because of their unique characteristics, cannot be distinctly classified or regulated in a particular zone or zones, without consideration in each case of the impact of such uses and features upon neighboring uses and the surrounding area compared with the public need for them in particular locations. Such uses and features are, therefore, treated as Special Exceptions.

44.02 REQUEST FOR SPECIAL EXCEPTIONS
Applications for the grant of Special Exceptions shall be filed with the Commission on forms provided therefor. The Applicant shall submit plans and other data required in Section 44.03, and shall be consonant of the Commission's findings criteria in Section 44.04.

44.03 SUBMISSION REQUIREMENTS
Each application for a Special Exception shall be submitted to the Commission at least ten (10) days prior to a regularly scheduled meeting and shall be accompanied by such fee required to cover the cost of advertising and sending notices in connection with the application. The Applicant shall furnish as part of such application the following:

44.03.01 Site Plan
Four (4) copies at a scale of 1"=40' including the following data:
A Property Boundaries
B Names of Abutting Property Owners
D Driveway Entrances and exits
E Storm Water Drainage System
F Location and Size of Parking Spaces
G Location and Size of Loading Spaces

J Location and Type of Light Standards
K Location of Traffic Islands and Barriers
L Location, Type, Size and Species of Shrubs, Trees or other Planting and Landscaping
M Location, Type and Height of Screening Materials along Property Lines
N Building Elevations or Preliminary Drawings showing the General Type of Building Proposed for construction

44.04 FINDINGS
A Special Exception may be granted when the Commission makes findings on:

44.04.01 Compliance with City Plan
The proposed use is consonant of the Plan of Development for physical development of the City, as embodied in the Zoning Code and in any Master Plan or portion thereof adopted by the Commission; and

44.04.02 Adverse Effects
The proposed use will not affect adversely the health and safety of residents or workers in the area and will not be detrimental to the use or development of adjacent properties or the general neighborhood; and

44.04.03 Visibility and Accessibility
The proposed use will not preempt frontage on a major highway in such a manner so as to substantially reduce the visibility and accessibility of an interior commercial area zoned or proposed for commercial use which is oriented to the same highway; and

44.04.04 Traffic Movement
The proposed use will not impair the movement of through-traffic along the adjoining thoroughfare through congestion and reduction of street capa-
cities or through storage or back-up of vehicles in the public right-of-way while awaiting service on the subject site; and

44.04.05 Orderly Development
The proposed use will not result in a fragmentation of the development pattern, thereby creating unnecessary additional points of vehicular conflict with the adjoining highway and adversely affecting the orderly development of surrounding neighborhoods; and

44.04.06 Property Values and Character
The proposed use will not tend to depreciate property values and the character and extent of development of adjoining properties; and

44.04.07 Parking and Loading
The proposed use will provide off-street parking and loading facilities in accordance with Section 40 of the Zoning Code; and

44.04.08 Compliance With Standards
The proposed use will meet all the standards set forth herein and set forth in Section 44.08 of the Zoning Code for the type of Special Exception being requested.

44.05 PUBLIC HEARINGS
The Commission shall hold a Public Hearing regarding any Special Exception application if, in its judgment, the specific circumstances require such action.

44.06 PLANNING COMMISSION ACTION
The Commission shall act on the final plan not later than sixty (60) days after the date of filing of such application. The Commission may approve, modify and approve, or disapprove the application. Notice of the decision of the Commission shall be communicated to the Applicant in writing within three (3) days after such decision has been rendered. Notice of the action of the Commission shall be published in a newspaper having a substantial circulation in the City within ten (10) days after

ADD Item 44.07.01

SPECIAL EXCEPTION

Titled: Termination of Granted Special Exception Use

"In the event a special exception land-use is terminated and a proposed new use is not 'use by right,' as currently zoned, application may be made to the Commission for approval of a substitute use for the facility.

In its evaluation the Commission may hold a public hearing and shall consider the similarity of the proposed new use to the terminated special exception use."

A Public Hearing concerning the Amendment was held March 22, 1972. Legal notices of the hearing appeared in The Middletown Press on March 11 and March 18, 1972.

such action has been taken. In addition, the Commission shall properly record the same by use of appropriate code numbers or symbols to indicate the area of the Special Exception on the Zoning Map.

Failure of any property owner to receive such mailing shall not be construed to nullify said hearing. The first date of hearing shall not be less than ten (10) days following the newspaper publication of the notice. All application files in the custody of the executive officer shall be open to public inspection during regular office hours. They shall not be removed from such office or inspected therein at other times by any person, except that such files may be removed from such office or inspected therein at other times by any person pursuant to court order or by the City Attorney or by the Commission.

71.03.03 Any interested person shall have the right to submit oral or written testimony at the hearing. C. The application is frivolous or filed for purposes of harassment.

If the application is not dismissed or allowed to be withdrawn as herein provided, it shall be
either approved or denied on the merits, in which case no application for the reclassification of all or any part of the land which is the subject of the application shall be accepted for filing for twelve (12) months following the date of such approval or denial on merits. No application for a Map amendment shall be approved conditionally for the erection on the land of a structure at a particular location, or within a particular time, or by a particular person, or of a particular type, or for the subdivision of the land in a particular manner, or on any other condition. A Errors in the existing Code; changes that have taken place in the city and in patterns of development and land use; the supply of land and its peculiar suitability for various purposes; the effect of a map change on the surrounding area, the purposes of zoning; the objectives of the Plan of Development; neighborhood acceptance weighed against community needs; and legality;

B Whether some other method or procedure under the Zoning Code is more appropriate; and

C In case of a map change, the size of the area involved. As a general policy, the Commission shall not consider favorably any petition which would result in a total contiguous zone (separated only by streets and excluding the area of streets) of less than twenty (20) qares.

71.03.06 The decision of the Zoning Commission on any application for a Map or Text amendment shall be rendered within sixty (60) days of the original hearing and shall be adopted by the Zoning Commission by four (4) votes of the five (5) commissioners sitting as the Zoning Commission. cision of the Zoning Commission is to deny or dismiss the application, such decision shall be in the form of a motion, indicating therein the reason for such action.
