Zoning Code, City of Middletown, Connecticut
ARTICLE I  ZONING PROVISIONS

SECTION 10  GENERAL PROVISIONS

10.00  GENERAL
Except as hereinafter specified, it shall be unlawful to use any land, structure, or building or to construct, erect, structurally alter, enlarge or rebuild any building or structure or part thereof unless in conformity with the provisions of this Code. No use or occupancy of building, structure, land or premises and no trade or industry shall hereafter be permitted within the City of Middletown which will produce irritating, corrosive, toxic or noisome fumes, gas vapor, smoke, cinders, or odors or obnoxious dust or waste or undue noise or vibration so as to be detrimental to the public health, safety or general welfare. The provisions of this Code shall not require modifying or changing the height, location or size of any building now existing or any change in the construction or arrangement of any such building or any change in the present use of any building, structure or premises.

10.01  PURPOSE
The purpose of this Zoning Code and the intent of the legislative authority in its adoption is to promote and protect the public health, safety, convenience, comfort, prosperity and the general welfare of the City of Middletown, Connecticut; by regulating the use of buildings, other structures and land for residences, public facilities, institutions, business, services, industry, or other purposes; by regulating and restricting the bulk, height, design, percent of lot occupancy, and location of buildings; by regulating and limiting population density; and, for the aforesaid purposes, to divide the land within the corporate limits of the City into zones of such number and dimensions in accordance with the objectives of the Plan of Development; and to provide procedures for administration and amendment of it.

10.02  INTENT
This Zoning Code is intended to achieve, among others, the following objectives; to protect the character and values of residential, institutional and public uses, business, commercial, and manufacturing uses—and to insure their orderly and beneficial development; and to provide adequate open spaces for light, air and outdoor uses; and to prevent overcrowding of the land; and to prevent excessive concentration of population—and, on the other hand, to prevent sparse and uncoordinated development; and to regulate and control the location and spacing of buildings on the lot and in relation to the surrounding property so as to carry out the objectives of the Plan of Development; and to regulate the location of
buildings and intensity of uses in relation to streets according to plans so as to cause the least interference with, and be damaged least by traffic movements, and hence result in lessened street congestion and improved public safety; and to establish zoning patterns that insure economical extensions for sewers, water supply, waste disposal and other public utilities, as well as developments for recreation, schools, and other public facilities; and to guide the future development of the City so as to bring about the gradual conformity of land and building uses in accordance with objectives of the Plan of Development; and to accomplish the specific intents and goals set forth in the introduction to the respective parts.

10.03 APPLICATION OF ZONE REGULATIONS
Except as hereinafter provided, the following general regulations shall apply:

10.03.01 No building, structure, or land shall hereafter be used or occupied, and no building or structure or part thereof shall hereafter be erected, constructed, reconstructed, moved, or structurally altered except in conformity with all of the regulations herein specified for the zone in which it is located.

10.03.02 No building or other structure shall hereafter be erected or altered: to exceed the height or bulk; to accommodate or house a greater number of families; to occupy a greater per cent of lot area; to have narrower or smaller rear yards, front yards, side yards or other open spaces than herein required; or in any other manner contrary to the provisions of this Code.

10.03.03 No part of a yard, or other open space, or off-street parking or loading space required above or in connection with any building for the purpose of complying with this Code, shall be included as part of a yard, open space, or off-street parking or loading space similarly required for any other building.

10.03.04 No yard or lot existing at the time of passage of this amendment shall be reduced in dimension or area below the minimum requirements set forth herein. Yards or lots created after the effective date of this amendment shall meet, at least, the minimum requirements established by this Code.

10.03.05 No parking area, parking space or loading space which exists on the effective date of this amendment or which subsequent thereto is provided for the purpose of complying with the provisions of this Code shall thereafter be relinquished or reduced in any manner below the requirements established by this Code, unless additional park-
ing area or space is provided sufficient for the purpose of complying with the provisions of this Code within three hundred (300) feet of the proposed or existing uses for which such parking will be available.

10.04 **SEPARABILITY CLAUSE**

Each section of this Code and each part of such section are declared to be independent sections and parts of sections, and notwithstanding any other evidence of legislative intent, it is hereby declared to be the controlling legislative intent that if any provision of said sections, or the application thereof to any person or circumstance, is held invalid for any reason, the remaining sections or parts of sections and the application of such provision to any person or circumstances other than as to those to which it is held invalid, shall not be affected thereby, and it is hereby declared that this Code would have been passed independently of the section, sections or parts of a section held to be invalid.

10.05 **PROVISIONS DECLARED TO BE MINIMUM REQUIREMENTS**

In their interpretation and application, the provisions of this Code shall be held to be minimum requirements, adopted for the promotion of the public health, safety, moral, or general welfare. Wherever the requirements of this Code are at variance with the requirements of any other lawfully adopted rules, regulations, ordinances, deed restrictions, or covenants, the most restrictive or that imposing the higher standard shall govern.

10.06 **SITE PLAN APPROVAL**

Site Plan approval shall be required in accordance with Section 55 of this Code.

SECTION 12 SUPPLEMENTARY PROVISIONS

12.01 VISIBILITY AT INTERSECTIONS IN RESIDENTIAL ZONES
On a corner lot in any Residence Zone no planting shall be placed or maintained, and no fence, building wall or other structure other than necessary retaining wall shall be constructed after the effective date of this section, if such planting or structure thereby obstructs vision at any point between a height of two and one-half (2½) feet and a height of ten (10) feet above the upper face of the nearest curb and within the triangular area bounded on two sides by the two street lines, or by projections of such lines to their point of intersection and the third side by a straight line connecting points on such street lines (or their projections), each of which points is twenty-five (25) feet distant from the point of intersection of the two street lines. Any lot as defined herein, which was legally recorded at the time of adoption of this section or which appeared on a preliminary subdivision plat approved by the Plan Commission prior to the adoption of this section and given final subdivision plat approval and filed with the town clerk within six (6) months of the adoption of this section and which was a buildable lot under the Zoning Code in effect immediately prior to the adoption of this section shall be deemed a buildable lot even though it may have less than the minimum area requirements.

12.06 STRUCTURES TO HAVE ACCESS

These provisions may be modified by the Planning Commission provided the Commission find the modification is necessary to make possible the reasonable use of land and that it will not be injurious to the neighborhood or otherwise detrimental to the public welfare. In granting any modification to these provisions, the Planning Commission may prescribe appropriate conditions and safeguards, when a part of the terms under which the modification is granted, shall be deemed a violation of the Code.

12.09.02 No such equipment shall be used for living, sleeping or housekeeping purposes when parked or stored on a residential lot or in any location not approved for such use.

13.01.02 Minimum Yards

In no case shall the width of any side yard be less than ten (10) per cent of the width of the lot, and provided, that on a corner lot, the width of the side yard adjoining the side street lot line shall not be less than eight (8) feet or twenty (20) per cent of the frontage, whichever is the greater. In no case shall the depth of the rear yard be less than ten (10) feet. Front, side or rear yard encroachments as specified in subsection 13.03 shall be prohibited in the case of substandard lots of record.

13.02 HEIGHT MODIFICATIONS

13.02.01 Height Limitations Not Applicable

The height limitations stipulated elsewhere in this Code shall not apply to the following:

13.02.02 Farm Buildings, Architectural Features, etc.

13.03 FRONitage AND YARD MODIFICATIONS

13.03.01 Buildings on Through Lots
Buildings on through lots shall conform to the front yard requirements for each street. In case of reversed frontage an accessory building shall not extend beyond the setback line of the rear street.

13.03.02 Frontage Modification
In the case of curvilinear streets and cul-de-sacs, the Planning Commission may authorize a reduction of the otherwise specified frontage or lot width in Residential Zones along the front property line, provided that: (a) the lot width at the building line shall equal the frontage or lot width required in the zone where located; (b) the front lot line shall be not less than sixty (60) feet in any event; and (c) such reduction of frontage shall not result in a reduction of the required lot area.

13.03.03 Average Depth of Front Yards
In any Residential Zone, where the average depth of at least two (2) existing front yards on lots within one hundred (100) feet of the lot in question and within the same block front is less or greater than the least front yard depth prescribed elsewhere in this Code, the required depth of the front yard on such lot shall be modified. In such case, this shall not be less than the average depth of said existing front yards on the two (2) lots immediately adjoining, or, in the case of a corner lot, the depth of the front yard on the lot immediately adjoining; provided, however, that the depth of a front yard on any lot shall be at least ten (10) feet and need not exceed fifty (50) feet.

13.03.04 Rear and Side Yards—How Computed
In computing the depths of a rear yard or the width of a side yard, where the rear or side yard abuts an alley, one-half (½) of the width of the alley may be included as a portion of the required rear or side yard, as the case may be.

13.03.05 Side Yard Modifications

A Side Yard Increased
Each side yard, where required, shall be increased in width by one (1) inch for each foot by which the length of the side wall of the building, adjacent to the side yard, exceeds fifty (50) feet.

B Side Yard Varied—Wall Not Parallel
Side yard width may be varied where the side wall of a building is not parallel with the side lot line or is
broken or otherwise irregular. In such case the average width of the side yard shall not be less than the otherwise required least width; provided, however, that such side yard shall not be narrower at any point than one-half (½) of the otherwise required least width or narrower than three (3) feet in any case.

6  Side Yard—Corner Lot
A side yard along the side street lot line of a corner lot, which lot abuts in the rear, either directly or across an alley, the side lot line of another lot in a Residential Zone, shall have a width of not less than one-half (½) the required depth of the front yard on such other lot fronting the side street.

13.04  PROJECTION OF ARCHITECTURAL FEATURES

13.04.04  Fences
Fences, up to six (6) feet in height, may be erected along the rear boundary, side boundary (from building line to rear boundary only) and front building line of a lot, and such fences shall not be deemed "structures" or "obstructions" for the purposes of this Code.

13.04.05  Steps, stoops and porches
Steps and uncovered stoops may extend into any minimum front or rear yard not more than nine (9) feet. On a corner lot having a minimum side yard twenty-five (25) feet or more in width, steps and open uncovered stoops, and porches may extend into such minimum side yard not more than (9) feet; but there shall be no encroachment upon the minimum side yard of a corner lot when such yard is less than twenty-five (25) feet in width, nor shall any other minimum side yard be encroached upon by such extensions. Enclosing or roofing of steps and open uncovered stoops, porches and outside open stairways which extend into the minimum required yards is prohibited.

Fire escapes may project not more than five (5) feet into front, side or rear yards.

(1) Front yard-three (3) feet
(2) Side yard-
   (A) To a point not less than twice the minimum side yard requirement from the main building on the adjoining lot, or
   (B) A depth of three (3) feet.
In no event, shall the remaining side yard be less than three (3) feet.
14.01 INTENT
Within the zones established by the Zoning Code or amendments that may later be adopted there exist
(a) lots,
(b) structures,
(c) uses of land and structures
(d) characteristics of use
which were lawful before this Code was passed or amended, but which would be prohibited, regulated or restricted under the terms of this Code or future amendment. It is the intent of this Code to permit these non-conformities to continue until they are removed, but not to encourage their survival. It is further the intent of this Zoning Code that any enlargement, expansion or structural alteration of non-conformities after the effective date of this ordinance shall be limited and that non-conformities shall not be used as grounds for adding other structures or uses prohibited elsewhere in the same zone.

Non-conforming uses are declared by this Zoning Code to be incompatible with permitted uses in the zones involved; however, non-conforming uses and structures will be permitted to remain. The purpose of regulating them is to restrict further investment in non-conformities which are inappropriate to their location.

To avoid undue hardship, nothing in this Code shall be deemed to require a change in the plans, construction or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Code and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where excavation or demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such excavation or demolition or removal shall be deemed to be actual construction, provided that work shall be carried on diligently.

14.02 NON-CONFORMING LOTS OF RECORD
In any zone in which single-family dwellings are permitted, a single-family dwelling and customary accessory building may be erected on any single lot of record at the effective date of adoption or amendment of this ordinance, notwithstanding limitations imposed by other provisions of the Zoning Code. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, that are generally applicable in the zone, provided that yard dimensions and requirements other than those applying to area or width, or both, of the lot shall conform to the regulations for the zone in which such lot is located.
Variance of yard requirements shall be obtained only through action of the Zoning Board of Appeals.

If two or more lots or combinations of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage or amendment of this Code, and if all or part of the lots do not meet the requirements established for lot width and area, the lands involved shall be considered to be an undivided parcel for the purposes of this Zoning Code, and no portion of said parcel shall be used or sold in a manner which diminishes compliance with lot width and area requirements established by the Zoning Code, nor shall any division of any parcel be made which creates a lot with width or area below the requirements stated in the Zoning Code.

exists at the effective date of adoption or amendment of this Code that would not be allowed in the zone under the terms of this Code, the lawful use may be continued so long as it remains otherwise lawful, including subsequent sales of the property, subject to the following provisions:

14.04.01 Expansion
If any existing structure devoted to a use not permitted by this Code in the zone in which it is located is proposed to be enlarged, extended, constructed, reconstructed, moved or structurally altered except in changing the use of the structure to a use permitted in the zone in which it is located, then such enlargement, extension, construction, reconstruction, move or structural alteration shall be approved by the Planning and Zoning Commission as specified in Section 14.07 of this Code.

14.04.02 Limitation

In permitting such change, the Zoning Board of Appeals may require appropriate conditions and safeguards in accord with the provisions of the Zoning Code;

14.04.04 Change to a Conforming Use
Any structure, or structure and land in combination, in or on which a non-conforming use is superseded by a permitted use, shall thereafter conform to the regulations for the zone, and the non-conforming use may not thereafter be resumed;

If a non-conforming structure or portion of a structure containing a non-conforming use becomes physically unsafe or unlawful due to lack of repairs and maintenance, and is declared by any duly authorized official to be unsafe or unlawful by reason of physical condition, it shall not thereafter be restored, repaired, or rebuilt except in conformity with the regulations of the zone in which it is located.

Nothing in the Zoning Code shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official; however, such structural alteration shall in all cases be approved by the Commission on the City Plan and Zoning.

14.06 USES UNDER SPECIAL EXCEPTION PROVISIONS NOT NON-CONFORMING USES
Any use which is permitted as a special exception in a zone under the terms of this Code (other than a change through the Zoning Board of Appeals action from a non-conforming use to another use not generally permitted in the zone) shall not be deemed a non-conforming use in such district, but shall without further action be considered a conforming use.

SECTION 44 SPECIAL EXCEPTIONS

44.01 PURPOSE
The development and execution of a comprehensive Zoning Code are based upon the division of the City into zones, with which the use of land and structures and the bulk and location of structures in relation to the land are substantially uniform. It is recognized, however, that there are certain uses and features which, because of their unique characteristics, cannot be distinctly classified or regulated in a particular zone or zones, without, consideration in each case of the impact of such uses and features upon neighboring uses and the surrounding area compared with the public need for them in particular locations. Such uses and features are, therefore, treated as Special Exceptions.

44.02 REQUEST FOR SPECIAL EXCEPTIONS
Applications for the grant of Special Exceptions shall be filled with the Commission on forms provided therefore. The Applicant shall submit plans and other data required in Section 44.03, and shall be consonant of the Commission's findings criteria in Section 44.04.

44.03 SUBMISSION REQUIREMENTS
Each application for a Special Exception shall be submitted to the Commission at least ten (10) days prior to a regularly scheduled meeting and shall be accompanied by such fee required to cover the cost of advertising and sending notices in connection with the application. The Applicant shall furnish as part of such application the following:

44.03.01 Site Plan
Site Plan as specified in SECTION 55
Site Plan Approval Requirement.

44.04 FINDINGS
A Special Exception may be granted when the Commission makes findings on:

44.04.01 Compliance with City Plan
The proposed use is consonant of the Plan of Development for physical development of the City, as embodied in the Zoning Code and in any Master Plan or portion thereof adopted by the Commission; and

44.04.02 Adverse Effects
The proposed use will not affect adversely the health and safety of residents or workers in the area and will not be detrimental to the use or development of adjacent properties or the general neighborhood; and

44.04.03 Visibility and Accessibility
The proposed use will not preempt frontage on a major highway in such a manner so as to substantially reduce the visibility and accessibility of an interior commercial area zoned or proposed for commercial use which is oriented to the same highway; and
Traffic Movement
The proposed use will not impair the movement of through-traffic along the adjoining thoroughfare through congestion and reduction of street capacities or through storage or back-up of vehicles in the public right-of-way while awaiting service on the subject site; and

Orderly Development
The proposed use will not result in a fragmentation of the development pattern, thereby creating unnecessary additional points of vehicular conflict with the adjoining highway and adversely affecting the orderly development of surrounding neighborhoods; and

Property Values and Character
The proposed use will not tend to depreciate property values and the character and extent of development of adjoining properties; and

Parking and Loading
The proposed use will provide off-street parking and loading facilities in accordance with Section 40 of the Zoning Code;

Compliance With Standards
The proposed use will meet all the standards set forth herein and set forth in Section 44.08 of the Zoning Code for the type of Special Exception being requested.

PUBLIC HEARING
The Commission shall hold a Public Hearing in accordance with the requirements of the General Statutes.

PLANNING COMMISSION ACTION
The Commission shall act on applications in accordance with the General Statutes.

Time Limitation
A Special Exception shall be valid for a period of two (2) years, during which time a building permit for such erection or alteration must be obtained and the erection or alteration started. Such exception shall continue in force and effect if a building permit for such erection or alteration is started within said period. A renewal of said exception may be granted for an additional two (2) years, measured from the date of renewal, as often as the Planning Commission finds that all requirements continue to be met. No public hearing shall be required. However, the Planning Commission shall show in its record that it has reviewed an application for renewal of the specified Special Exception and that all appropriate provisions and findings are reaffirmed.

VIOLATION OF SPECIAL EXCEPTIONS
Whenever the Commission shall find, in the case of any Special Exception heretofore or hereafter granted pursuant to the provisions of this section, that any of the terms, conditions, or restrictions upon which such permit was granted are not being complied with, the Commission may rescind and revoke such
permit after giving due notice to all parties concerned. Violation of Special Exception shall constitute a violation of the Zoning Code.

44.07.01 Termination of Granted Special Exception Use
In the event a Special Exception land-use is terminated and a proposed new use is not 'use by right,' as currently zoned, application may be made to the Commission for approval of a substitute use for the facility. In its evaluation the Commission may hold a public hearing and shall consider the similarity of the proposed new use to the terminated Special Exception use.

**HEARINGS**

Before making its decision, the Commission shall hold a public hearing thereon and called in the manner provided in the General Statutes of Connecticut.

71.03.03

Any interested person shall have the right to submit oral or written testimony at the hearing. There shall be a complete stenographic report of the testimony at the hearing, including the application, which shall promptly be incorporated by the executive officer in the application file and shall be considered a part of the record on the application. The hearing may be adjourned from time to time and resumption date, place, and time publicly announced.
An application for a Map or Text amendment shall be decided on the basis of the evidence on record. Such application shall be either approved or denied on the merits, or dismissed, or allowed to be withdrawn. The Zoning Commission may dismiss any such application if it finds that:

A. The application does not conform to any stated procedure requirement of this section;

B. The application is not acceptable for filing because filed within twelve (12) months, as herein above provided; or

C. The application is frivolous or filed for purposes of harassment.

If the application is not dismissed or allowed to be withdrawn as herein provided, it shall be either approved or denied on the merits, in which case no application for the reclassification of all or any part of the land which is the subject of the application shall be accepted for filing for twelve (12) months following the date of such approval or denial on merits.

No application for a Map amendment shall be approved conditionally for the erection on the land of a structure at a particular location, or within a particular time, or by a particular person, or of a particular type, or for the subdivision of the land in a particular manner, or on any other condition. No application for a Map amendment shall be approved for a class of zone other than that applied for. No application for a Map amendment shall be approved for a greater or smaller area than that applied for.

In passing upon any such petition, the Commission shall take into account the various factors favoring and disfavoring a change, such as but not limited to the following:

A. Errors in the existing Code; changes that have taken place in the City in patterns of development and land use; the supply of land and its peculiar suitability for various purposes; the effect of a map change on the surrounding area, the purposes of zoning; the objectives of the Plan of Development; neighborhood acceptance weighed against community needs; and legality;

B. Whether some other method or procedure under the Zoning Code is more appropriate; and

C. In case of a map change, the size of the area involved. As a general policy, the Commission shall not consider favorably any petition which would result in a total contiguous zone (separated only by streets and excluding the area of streets) of less than twenty (20) acres.
The zoning Code of 1927, as amended, of the City of Middletown, passed and adopted by the Zoning Commission of the City of Middletown on the 2nd day of February, 1927, is hereby repealed, provided that nothing herein contained shall be deemed to repeal or amend any law of said City requiring a permit or license or both to carry on any business, trade or occupation.
