ARTICLE I ZONING PROVISIONS

SECTION 10 GENERAL PROVISIONS

10.00 GENERAL

Except as hereinafter specified, it shall be unlawful to use any land, structure, or building or to construct, erect, structurally alter, enlarge or rebuild any building or structure or part thereof unless in conformity with the provisions of this Code. No use or occupancy of building, structure, land or premises and no trade or industry shall hereafter be permitted within the City of Middletown which will produce irritating, corrosive, toxic or noxious fumes, gas vapor, smoke, cinders, or odors or obnoxious dust or waste or undue noise or vibration so as to be detrimental to the public health, safety or general welfare. The provisions of this Code shall not require modifying or changing the height, location or size of any building now existing or any change in the construction or arrangement of any such building or any change in the present use of any building, structure or premises.

10.01 PURPOSE

The purpose of this Zoning Code and the intent of the legislative authority in its adoption is to promote and protect the public health, safety, convenience, comfort, prosperity and the general welfare of the City of Middletown, Connecticut; by regulating the use of buildings, other structures and land for residences, public facilities, institutions, business, services, industry, or other purposes; by regulating and restricting the bulk, height, design, percent of lot occupancy, and location of buildings; by regulating and limiting population density; and, for the aforesaid purposes, to divide the land within the corporate limits of the City into zones of such number and dimensions in accordance with the objectives of the Plan of Development; and to provide procedures for administration and amendment of it.

10.02 INTENT

This Zoning Code is intended to achieve, among others, the following objectives: to protect the character and values of residential, institutional and public uses, business, commercial, and manufacturing uses--and to insure their orderly and beneficial development; and to provide adequate open spaces for light, air and outdoor uses; and to prevent overcrowding of the land; and to prevent excessive concentration of population--and, on the other hand, to prevent sparse and uncoordinated development; and to regulate and control the location and spacing of buildings on the lot and in relation to the surrounding property so as to carry out the objectives of the Plan of Development; and to regulate the location of buildings and intensity of

uses in relation to streets according to plans so as to cause the least interference with, and be damaged least by traffic movements, and hence result in lessened street congestion and improved public safety; and to establish zoning patterns that insure economical extensions for sewers, water supply, waste disposal and other public utilities, as well as developments for recreation, schools, and other public facilities; and to guide the future development of the City so as to bring about the gradual conformity of land and building uses in accordance with objectives of the Plan of Development; and to accomplish the specific intents and goals set forth in the introduction to the respective parts.

10.03 APPLICATION OF ZONE REGULATIONS

Except as hereinafter provided, the following general regulations shall apply:

- 10.03.01 No building, structure, or land shall hereafter be used or occupied, and no building or structure or part thereof shall hereafter be erected, constructed, reconstructed, moved, or structurally altered except in conformity with all of the regulations herein specified for the zone in which it is located.
- 10.03.02 No building or other structure shall hereafter be erected or altered: to exceed the height or bulk; to accommodate or house a greater number of families; to occupy a greater per cent of lot area; to have narrower or smaller rear yards, front yards, side yards or other open spaces than herein required; or in any other manner contrary to the provisions of this Code.
- 10.03.03 No part of a yard, or other open space, or off-street parking or loading space required above or in connection with any building for the purpose of complying with this Code, shall be included as part of a yard, open space, or off-street parking or loading space similarly required for any other building.
- 10.03.04 No yard or lot existing at the time of passage of this amendment shall be reduced in dimension or area below the minimum requirements set forth herein. Yards or lots created after the effective date of this amendment shall meet, at least; the minimum requirements established by this Code.
- 10.03.05 No parking area, parking space or loading space which exists on the effective date of this amendment or which subsequent thereto is provided for the purpose of complying with the provisions of this Code shall thereafter be relinquished or reduced in any manner below the requirements established by this Code, unless additional parking

area or space is provided sufficient for the purpose of complying with the provisions of this Code within three hundred (300) feet of the proposed or existing uses for which such parking will be available.

10.04 SEPARABILITY CLAUSE

Each section of this Code and each part of such section are declared to be independent sections and parts of sections, and notwithstanding any other evidence of legislative intent, it is hereby declared to be the controlling legislative intent that if any provision of said sections, or the application thereof to any person or circumstance, is held invalid for any reason, the remaining sections or parts of sections and the application of such provision to any person or circumstance other than as to those to which it is held invalid, shall not be affected thereby, and it is hereby declared that this Code would have been passed independently of the section, sections or parts of a section held to be invalid.

10.05 PROVISIONS DECLARED TO BE MINIMUM REQUIREMENTS

In their interpretation and application, the provisions of this Code shall be held to be minimum requirements, adopted for the promotion of the public health, safety, moral, or general welfare. Wherever the requirements of this Code are at variance with the requirements of any other lawfully adopted rules, regulations, ordinances, deed restrictions, or covenants, the most restrictive or that imposing the higher standard shall govern.

10.06 SITE PLAN APPROVAL

Buildings on through lots shall conform to the front yard requirements for each street. In case of reversed frontage an accessory building shall not extend beyond the setback line of the rear street.

13.03.02 FRONTAGE MODIFICATION

In the case of curvilinear streets and cul-de-sacs, the Planning Commission may authorize a reduction of the otherwise specified frontage or lot width in Residential Zones along the front property line, provided that: (a) the lot width at the building line shall equal the frontage or lot width required in the zone where located; (b) the front lot line shall be not less than sixty (60) feet in any event; and (c) such reduction of frontage shall not result in a reduction of the required lot area.

13.03.03 AVERAGE DEPTH OF FRONT YARDS

In any Residential Zone, where the average depth of at least two (2) existing front yards on lots within one hundred (100) feet of the lot in question and within the same block front is less or greater than the least front yard depth prescribed elsewhere in this Code, the required depth of the front yard on such lot shall be modified. In such case, this shall not be less than the average depth of said existing front yards on the two (2) lots immediately adjoining, or, in the case of a corner lot, the depth of the front yard on the lot immediately adjoining; provided, however, that the depth of a front yard on any lot shall be at least ten (10) feet and need not exceed fifty (50) feet.

13.03.04 REAR AND SIDE YARDS-HOW COMPUTED

In computing the depths of a rear yard or the width of a side yard, where the rear or side yard abuts an alley, one-half (1/2) of the width of the alley may be included as a portion of the required rear or side yard, as the case may be.

13.03.05 SIDE YARD MODIFICATIONS

A SIDE YARD INCREASED

Each side yard, where required, shall be increased in width by one (1) inch for each foot by which the length of the side wall of the building, adjacent to the side yard, exceeds fifty (50) feet.

B SIDE YARD VARIED-WALL NOT PARALLEL

Side yard width may be varied where the side wall of a building is not parallel with the side lot line or is

broken or otherwise irregular. In such case the average width of the side yard shall not be less than the otherwise required least width; provided, however, that such side yard shall not be narrower at any point than one-half (1/2) of the otherwise required least width or narrower than three (3) feet in any case.

C SIDE YARD-CORNER LOT

A side yard along the side street lot line of a corner lot, which lot abuts in the rear, either directly or across an alley, the side lot line or another lot in a Residential Zone, shall have a width of not less than one-half (1/2) the required depth of the front yard on such other lot fronting the side street.

13.04 PROJECTION OF ARCHITECTURAL FEATURES

Certain architectural features may project into required yards or courts as follows:

13.04.01 BELT COURSES, SILLS AND LINTELS

13.04.04 FENCES

Fences, up to six (6) feet in height, may be erected along the rear boundary, side boundary (from building line to rear boundary only) and front building line of a lot, and such fences shall not be deemed "structures" or "obstructions" for the purposes of this Code.

13.04.05 STEPS, STOOPS AND PORCHES

Steps and uncovered stoops may extend into any minimum front or rear yard not more than nine (9) feet. On a corner lot having a minimum side yard twenty-five (25) feet or more in width, steps and open uncovered stoops, and porches may extend into such minimum side yard not more than nine (9) feet; but there shall be no encroachment upon the minimum side yard of a corner lot when such yard is less than twenty-five (25) feet in width, nor shall any other minimum side yard be encroached upon by such extensions. Enclosing or roofing of steps and open uncovered stoops, porches and outside open stairways which extend into the minimum required yards is prohibited.

13.04.06 FIRE ESCAPES

Fire escapes may project not more than five (5) feet into front, side or rear yards.

13.04.07 CHIMNEYS

Chimneys in any Residential Zone may project not more than eighteen (18) inches into a front, side or rear yard. Chimneys used as walls shall not be allowed to project into any yard.

(1) Front yard-three (3) feet

(2) Side yard

(a) To a point not less than twice the minimum side yard requirement from the main building on the adjoining lot, or

(b) A depth of three (3) feet.

In no event, shall the remaining side yard be less than three (3) feet.

## SECTION 14 NON-CONFORMING BUILDINGS AND USES

### 14.01

#### INTENT

Within the zones established by the Zoning Code or amendments that may later be adopted there exist

- (a) lots,
- (b) structures,
- (c) uses of land and structures
- (d) characteristics of use

which were lawful before this Code was passed or amended, but which would be prohibited, regulated or restricted under the terms of this Code or future amendment. It is the intent of this Code to permit these non-conformities to continue until they are removed, but not to encourage their survival. It is further the intent of this Zoning Code that any enlargement, expansion or structural alteration of non-conformities after the effective date of this ordinance shall be limited and that non-conformities shall not be used as grounds for adding other structures or uses prohibited elsewhere in the same zone.

Non-conforming uses are declared by this Zoning Code to be incompatible with permitted uses in the zones involved; however, non-conforming uses and structures will be permitted to remain. The purpose of regulating them is to restrict further investment in non-conformities which are inappropriate to their location.

To avoid undue hardship, nothing in this Code shall be deemed to require a change in the plans, construction or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Code and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where excavation or demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such excavation or demolition or removal shall be deemed to be actual construction, provided that work shall be carried on diligently.

### 14.02

#### NON-CONFORMING LOTS OF RECORD

In any zone in which single-family dwellings are permitted, a single-family dwelling and customary accessory building may be erected on any single lot of record at the effective date of adoption or amendment of this ordinance, notwithstanding limitations imposed by other provisions of the Zoning Code. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, that are generally applicable in the zone, provided that yard dimensions and requirements other than these applying to area or width, or both, of the lot shall conform to the regulations for the zone in which such lot is located.

Variance of yard requirements shall be obtained only through action of the Zoning Board of Appeals.

If two or more lots or combinations of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage or amendment of this Code, and if all or part of the lots do not meet the requirements established for lot width and area, the lands involved shall be considered to be an undivided parcel for the purposes of this Zoning Code, and no portion of said parcel shall be used or sold in a manner which diminishes compliance with lot width and area requirements established by the Zoning Code, nor shall any division of any parcel be made which creates a lot with width or area below the requirements stated in the Zoning Code.

- 14.03 NON-CONFORMING USES OF LAND (OR LAND WITH MINOR STRUCTURES ONLY)  
Where at the time of passage of this Code lawful use of land exists which would not be permitted by the regulations imposed by the Zoning Code, and where such use involves no individual structure with a replacement cost exceeding one thousand (\$1,000) dollars, the use may be continued so long as it remains otherwise lawful, provided:
- 14.03.01 EXPANSION  
No such non-conforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Code, except with the approval of the Commission;
- 14.03.02 MOVING  
No such non-conforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this Code; except with the approval of the Commission;
- 14.03.03 DISCONTINUANCE  
In any such non-conforming use of land ceases for any reason for a period of more than one (1) year, any subsequent use of such land shall conform to the regulations specified by the Zoning Code for the zone in which such land is located;
- 14.03.04 ADDITIONS  
No additional structure not conforming to the requirements of the Zoning Code shall be erected in connection with such non-conforming use of land, except with the approval of the Commission.
- 14.04 NON-CONFORMING USES OF STRUCTURES OR OF STRUCTURES AND PREMISES IN COMBINATION  
If lawful use involving individual structures with a replacement cost of one thousand(\$1,000) dollars or more, or of structure and premises in combination,

exists at the effective date of adoption or amendment of this Code that would not be allowed in the zone under the terms of this Code, the lawful use may be continued so long as it remains otherwise lawful, including subsequent sales of the property, subject to the following provisions:

14.04.01 EXPANSION

If any existing structure devoted to a use not permitted by this Code in the zone in which it is located is proposed to be enlarged, extended, constructed, reconstructed, moved or structurally altered except in changing the use of the structure to a use permitted in the zone in which it is located, then such enlargement, extension, construction, reconstruction, move or structural alteration shall be approved by the Commission as specified in Section 14.07 of this Code.

14.04.02 LIMITATION

Any non-conforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Code, but no such use shall be extended to occupy any land outside such building, except with the approval of the Commission.

No expansion of a non-conforming use or structure, or combination thereof, shall exceed the boundaries (premises) than was occupied at the effective date of adoption or amendment of this Code;

14.04.03 CHANGE OF USE

If no structural alterations are made, any non-conforming use of a structure, or structure and premises, may as a special exception be changed to another non-conforming use provided that the Zoning Board of Appeals, either by general rule or by making findings in the specific case, shall find that the proposed use is equally appropriate or more appropriate to the zone than the existing non-conforming use. In permitting such change, the Zoning Board of Appeals may require appropriate conditions and safeguards in accord with the provisions of the Zoning Code;

14.04.04 CHANGE TO A CONFORMING USE

Any structure, or structure and land in combination, in or on which a non-conforming use is superseded by a permitted use, shall thereafter conform to the regulations for the zone, and the non-conforming use may not thereafter be resumed;

14.04.05 DISCONTINUANCE

When a non-conforming use of a structure, or structure and premises in combination, is discontinued or abandoned for twelve (12) consecutive months or for eighteen(18) months during any three (3) year period

(except when government action impedes access to the premises), the structure, or structure and premises in combination, shall not thereafter be used except in conformity with the regulations of the zone in which it is located;

14.04.06 RESTORATION

Where non-conforming use status applies to a structure or to a structure and premises in combination, removal or destruction of the structure shall eliminate the non-conforming status of the land;

14.04.07 MOVING

No non-conforming structure or structure and premises in combination shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this Code, except with the approval of the Commission.

14.05 REPAIRS AND MAINTENANCE

On any non-conforming structure or portion of a structure containing a non-conforming use, work may be done on ordinary repairs, or on repair or replacement of non-bearing walls, fixtures, wiring, or plumbing, of the non-conforming structure or non-conforming portion of the structure as the case may be, provided that such is approved by the Commission.

If a non-conforming structure or portion of a structure containing a non-conforming use becomes physically unsafe or unlawful due to lack of repairs and maintenance, and is declared by any duly authorized official to be unsafe or unlawful by reason of physical condition, it shall not thereafter be restored, repaired, or rebuilt except in conformity with the regulations of the zone in which it is located.

Nothing in the Zoning Code shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official; however, such structural alteration shall in all cases be approved by the Commission.

14.06 USES UNDER SPECIAL EXCEPTION PROVISIONS NOT NON-CONFORMING USES

Any use which is permitted as a special exception in a zone under the terms of this Code (other than a change through the Zoning Board of Appeals action from a non-conforming use to another use not generally permitted in the zone) shall not be deemed a non-conforming use in such district, but shall without further action be considered a conforming use.

14.07 CHANGE OF NON-CONFORMING USE CERTIFICATE

14.07.01 REQUEST FOR CHANGE OF NON-CONFORMING USE  
Applications for the grant of Change of Non-Conforming Uses shall be filed with the Commission on forms provided therefor. The applicant shall submit plans and other data required in Section 14.07.02.

14.07.03 PUBLIC HEARINGS

Any proposed application for an expansion of a non-conforming use in excess of twenty-five (25) per cent of its cubic volume, shall be heard at a public hearing.

- 14.07.04 COMMISSION ACTION  
The Commission shall act on the final plan in accordance with the time limitation specified in the General Statutes.
- 14.07.05 VIOLATION OF CHANGE OF NON-CONFORMING USE CERTIFICATES

Violation of a Change of Non-Conforming Use shall constitute a violation of the Zoning Code.
- 14.07.06 GENERAL STANDARDS FOR CHANGE OF NON-CONFORMING USE  
A Change of Non-Conforming Use Certificate may be granted when the Commission makes determinations on:

It is recognized, however, that there are certain uses and features which, because of their unique characteristics, cannot be distinctly classified or regulated in a particular zone or zones, without consideration in each case of the impact of such uses and features upon neighboring uses and the surrounding area compared with the public need for them in particular locations. Such uses and features are, therefore, treated as Special Exceptions.

Applications for the grant of Special Exceptions shall be filled with the Commission on forms provided therefore. The Applicant shall submit plans and other data required in Section 44.03, and shall be consonant of the Commission's findings criteria in Section 44.04

A renewal of said exception may be granted for an additional one (1) year, measured from the date of renewal, as often as the Commission finds that all requirements continue to be met. No public hearing shall be required. However, the Commission shall show in its record

that it has reviewed an application for renewal of the specified Special Exception and that all appropriate provisions and findings are reaffirmed.

44.07

- C. Any sign now or hereafter existing which no longer advertises a bona fide business conducted, product sold or activity or campaign being conducted shall be taken down and removed by the owner, agent or person having the beneficial use of the building, structure or lot upon which such signs may be found within thirty (30) days of such cessation.

Unless topographically impractical new or rebuilt outdoor advertising ground structures shall be of the cantilever type to lessen possibility of unsightly "A" frame construction.

- J. No signs shall be attached to the roof, or painted on the roof, of any building.
- K. Free standing signs shall not exceed twenty-five (25) feet in overall height above ground level.
- L. All signs related to premises on which the sign is located shall be within the parcels property lines.

No application for a Map amendment shall be approved conditionally for the erection on the land of a structure at a particular location, or within a particular manner, or on any other condition. No application for a Map amendment shall be approved for a class of zone other than that applied for. No application for a Map amendment shall be approved for a greater or smaller area than that applied for.

- 71.03.03 In passing upon any such petition, the Commission shall take into account the various factors favoring and dis-favoring a change, such as but not limited to the following:
- A. Errors in the existing Code; changes that have taken place in the City in patterns of development and land use; the supply of land and its peculiar suitability for various purposes; the effect of a map change on the surrounding area, the purposes of zoning; the objectives of the Plan of Development ; neighborhood acceptance weighed against community needs; and legality;
  - B. Whether some other method or procedure under the Zoning Code is more appropriate; and
  - C. In case of a map change, the size of the area involved. As a general policy, the Commission shall not consider favorably any petition which would result in a total contiguous zone (separated only by streets and excluding the area of streets) of less than twenty (20) acres.

SECTION 72

The Zoning Code of 1927, as amended, of the City of Middletown, passed and adopted by the Zoning Commission of the City of Middletown on the 7th day of February, 1927, is hereby repealed, provided that nothing herein contained shall be deemed to repeal or amend any law of said City requiring a permit or license or both to carry on any business, trade or occupation.

SECTION 73
