ARTICLE I ZONING PROVISIONS  
SECTION 10 GENERAL PROVISIONS

10.00 GENERAL

Except as hereinafter specified, it shall be unlawful to use any land, structure, or building or to construct, erect, structurally alter, enlarge or rebuild any building or structure or part thereof unless in conformity with the provisions of this Code. No use or occupancy of building, structure, land or premises and no trade or industry shall hereafter be permitted within the City of Middletown which will produce irritating, corrosive, toxic or noxious fumes, gas vapor, smoke, cinders, or odors or obnoxious dust or waste or undue noise or vibration so as to be detrimental to the public health, safety or general welfare. The provisions of this Code shall not require modifying or changing the height, location or size of any building now existing or any change in the construction or arrangement of any such building or any change in the present use of any building, structure or premises.

10.01 PURPOSE

The purpose of this Zoning Code and the intent of the legislative authority in its adoption is to promote and protect the public health, safety, convenience, comfort, prosperity and the general welfare of the City of Middletown, Connecticut; by regulating the use of buildings, other structures and land for residences, public facilities, institutions, business, services, industry or other purposes; by regulating and restricting the bulk, height, design, percent of lot occupancy, and location of buildings; by regulating and limiting population density; and, for the aforesaid purposes, to divide the land within the corporate limits of the City into zones of such number and dimensions in accordance with the objectives of the Plan of Development; and to provide procedures for administration and amendment of it.

10.02 INTENT

This Zoning Code is intended to achieve, among others, the following objectives: to protect the character and values of residential, institutional and public uses, business, commercial, and manufacturing uses — and to insure their orderly and beneficial development; and to provide adequate open spaces for light, air and outdoor uses; and to prevent excessive concentration of population — and, on the other hand; to prevent sparse and uncoordinated development; and to regulate and control the location and spacing of buildings on the lot and in relation to the surrounding property so as to carry out the objectives of the Plan of Development; and to regulate the location of buildings and intensity of uses in relation to streets according to plans so as to cause the least interference with, and be damaged least by traffic movements, and hence result in lessened street congestion and improved public safety; and to establish zoning patterns that insure economic extensions for sewers, water supply, waste disposal and other public utilities, as well as developments for recreation, schools, and other public facilities; and to guide the future development of the City so as to bring about the gradual conformity of land and building uses in accordance with the objectives of the Plan of Development; and to accomplish the specific intents and goals set forth in the introduction to the respective parts.

### 10.03 APPLICATION OF ZONE REGULATIONS

Except as hereinafter provided, the following general regulations shall apply:

- 10.03.01 No building, structure, or land shall hereafter be used or occupied; and no building or structure or part thereof shall hereafter be erected, constructed, reconstructed, moved, or structurally altered except in conformity with all of the regulations herein specified for the zone in which it is located.
- 10.03.02 No building or other structure shall hereafter be erected or altered: to exceed the height or bulk; to accomodate or house a greater number of families; to occupy a greater per cent of lot area; to have narrower or smaller rear yards, front yards, side yards or other open spaces than herein required; or in any other manner contrary to the provisions of this Code.
- 10.03.03 No part of a yard, or other open space, or off-street parking or loading space required above or in connection with any building for the purpose of complying with this Code, shall be included as part of a yard, open space, or off-street parking or loading space similarly required for any other building.
- 10.03.04 No yard or lot existing at the time of passage of this amendment shall be reduced in dimension or area below the minimum requirements set forth herein. Yards or lots created after the effective date of this amendment shall meet, at least; the minimum requirements established by this Code.
- 10.03.05 No parking area, parking space or loading space which exists on the effective date of this amendment or which subsequent thereto is provided for the purpose of complying with the provisions of this Code shall hereafter be relinquished or reduced in manner below the requirements established by this Code, unless additional parking area or space is provided sufficient for the purpose of complying with the provisions of this Code within three hundred (300) feet of the proposed or existing uses for which such parking will be available.

### 10.04 SEPARABILITY CLAUSE

Each section of this Code and each part of such section are declared to be independent sections and parts of sections, and notwithstanding any other evidence of legislative intent, it is hereby declared to be the controlling legislative intent that if any provision of said sections, or parts of sections and the application of such provision to any person or circumstances other than as to those to which it is held invalid, shall not be affected thereby, and it is hereby declared, that this Code would have been passed independently of the section, sections or parts of a section held to be invalid.

### 10.05 PROVISIONS DECLARED TO BE MINIMUM REQUIREMENTS

In their interpretation and application, the provisions of this Code shall be held to be minimum requirements, adopted for the promotion of the public health, safety, moral, or general welfare. Wherever the requirements of this Code are at variance with the requirements of any other lawfully adopted rules, regulations, ordinances, deed restrictions, or covenants, the most restrictive or that imposing the higher standards shall govern.

13.03 FRONTAGE AND YARD MODIFICATIONS

13.03.01 BUILDINGS ON THROUGH LOTS

Buildings on through lots shall conform to the front yard requirements for each street. In case of reversed frontage an accessory building shall not extend beyond the setback line of the rear street.

13.03.02 FRONTAGE MODIFICATION

In the case of curvilinear streets and cul-de-sacs, the Planning Commission may authorize a reduction of the otherwise specified frontage or lot width in Residential zones along the front property line, provided that:

- (a) the lot width at the building line shall equal the frontage or lot width required in the zone where located;
- (b) the front lot line shall not be less than sixty (60) feet in any event; and
- (c) such reduction of frontage shall not result in a reduction of the required lot area.

13.03.03 AVERAGE DEPTH OF FRONT YARDS

In any Residential Zone, where the average depth of at least two (2) existing front yards on lots within one hundred (100) feet of the lot in question, and within the same block front is less or greater than the least front yard depth prescribed elsewhere in this Code, the required depth of the front yard on such lot shall be modified. In such case, this shall not be less than the average depth of said existing front yards on the two (2) lots immediately adjoining, or, in the case of a corner lot, the depth of the front yard on the lot immediately adjoining; provided, however, that the depth of a front yard on any lot shall be at least ten (10) feet and need not exceed fifty (50) feet.

13.03.04 REAR AND SIDE YARDS - HOW COMPUTED

Each side yard, where required, shall be increased in width by one (1) inch for each foot by which the length of the side wall of the building, adjacent to the side yard, exceeds fifty (50) feet.

B SIDE YARD VARIED-WALL NOT PARALLEL

Side yard width may be varied where the side wall of a building is not parallel with the side lot line or is

broken or otherwise irregular. In such case the average width of the side yard shall not be less than the otherwise required least width; provided, however, that such side yard shall not be narrower at any point than one-half (1/2) of the otherwise required least width or narrower than three (3) feet in any case.

C SIDE YARD - CORNER LOT

13.04.05 STEPS, STOOPS AND PORCHES

Steps and uncovered stoops may extend into any minimum front or rear yard not more than nine (9) feet. On a corner lot having a minimum side yard twenty-five (25) feet or more in width, steps and open uncovered stoops, and porches may extend into such minimum side yard not more than nine (9) feet; but there shall be no encroachment upon the minimum side yard of a corner lot when such yard is less than twenty-five (25) feet in width, nor shall any other minimum side yard be encroached upon by such extensions. Enclosing or roofing of steps and open uncovered stoops, porches and outside open stairways which extend into the minimum required yards is prohibited.

(b) A depth of three (3) feet.

In no event, shall the remaining side yard be less than three (3) feet.

14.01 INTENT

Within the zones established by the Zoning Code or amendments that may later be adopted there exist

- (a) Lots,
- (b) Structures,
- (c) Uses of land and structures
- (d) Characteristics of use

which were lawful before this Code was passed or amended, but which would be prohibited, regulated or restricted under the terms of this Code or future amendment. It is the intent of this Code to permit these non-conformities to continue until they are removed, but not to encourage their survival. It is further that the intent of this Zoning Code that any enlargement, expansion or structural alteration of non-conformities after the effective date of this ordinance shall be limited and that non-conformities shall not be used as grounds for adding other structures or uses prohibited elsewhere in the same zone.

Non-conforming uses are declared by this Zoning Code to be incompatible with permitted uses in the zones involved; however, non-conforming uses and structures will be permitted to remain. The purpose of regulating them is to restrict further investment in non-conformities which are inappropriate to their location.

To avoid undue hardship, nothing in this Code shall be deemed to require a change in the plans, construction or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Code and upon which actual building construction has been carried diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where excavation or demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such excavation or demolition or removal shall be deemed to be actual construction, provided that work shall be carried on diligently.

14.02A NON-CONFORMING LOTS OF RECORD

In any zone permitting single family dwellings, a single family dwelling may be erected on a lot notwithstanding other provisions of the Zoning Code. The lot must have fifty (50) feet of frontage. This provision applies even though the lot does not meet area or width requirements of the Zone. The lot must conform to all other yard and dimension requirements.

Variance of yard requirements shall be obtained only through action of the Zoning Board of Appeal.

14.02B NON-CONFORMING PARCEL OF LAND WITH STRUCTURES

In any zone where there may have been structures built on parcels of land not in conformance with these regulations, it is in the best interest of this Code to attempt to mitigate the irregularities. For this purpose the Commission may accept a recommendation from the Planning Director for a rearrangement of the parcel which will eliminate as many non-conforming features

as circumstances permit. No new structures shall be authorized by the parcel rearrangement nor shall violations of previous Zoning Code requirements or Subdivision Regulations as they existed prior to December 1, 1984 be excused. The Commission shall recognize that there may be circumstances for which there is no mitigating arrangements possible.

14.03 NON-CONFORMING USES OF LAND (OR LAND WITH MINOR STRUCTURES ONLY)

Where at the time of passage of this Code lawful use of land exists which would not be permitted by the regulations imposed by the Zoning Code, and where such use involves no individual structure with a replacement cost exceeding one thousand (\$1,000) dollars, the use may be continued so long as it remains otherwise lawful, provided:

14.03.01 EXPANSION

No such non-conforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Code, except with the approval of the Commission;

14.03.02 MOVING

No such non-conforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this Code; except with the approval of the Commission;

14.03.03 DISCONTINUANCE

If any such non-conforming use of land ceases for any reason for a period of more than one (1) year, any subsequent use of such land shall conform to the regulations specified by the Zoning Code for the zone in which such land is located except use destroyed by fire or natural causes which may be rebuilt within a one (1) year time period.

14.03.04 ADDITIONS

No additional structure not conforming to the requirements of the Zoning Code shall be erected in connection with such non-conforming use of land, except with the approval of the Commission.

14.04 NON-CONFORMING USES OF STRUCTURES OR OF STRUCTURES AND PREMISES IN COMBINATION

If lawful use involving individual structures with a replacement cost of one thousand (\$1,000) dollars or more, or of structure and premises in combination, exists at the effective date of adoption or amendment of this Code that would not be allowed in the zone under the terms of this Code, the lawful use may be continued so long as it remains otherwise lawful, including subsequent sales of the property, subject to the following provisions:

14.04.01 EXPANSION

If any existing structure devoted to a use not permitted by this Code in the zone in which it is located is proposed to

be enlarged, extended, constructed, reconstructed, moved or structurally altered except in changing the use of the structure to a use permitted in the zone in which it is located, then such enlargement, extension, construction, reconstruction, move or structural alteration shall be approved by the Commission as specified in Section 14.07 of this Code.

14.04.02 LIMITATION

Any non-conforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Code, but no such use shall be extended to occupy any land outside such building, except with the approval of the Commission.

No expansion of a non-conforming structure or site shall be permitted except with the approval of the Commission.

14.04.03 CHANGE OF USE

Legally established uses that have become non-conforming by subsequent changes of the Zoning Regulations may continue and a use may be substituted for by a similar use from time to time. In the event of any disagreement of the similarity of proposed inter-change uses the Commission shall determine the suitability of the proposed substitute use.

14.04.04 CHANGE TO A CONFORMING USE

Any structure, or structure and land in combination, in or on which a non-conforming use is superseded by a permitted use, shall thereafter conform to the regulations for the zone, and the non-conforming use may not thereafter be resumed;

14.04.05 DISCONTINUANCE

When a non-conforming use of a structure, or structure and premises in combination, is discontinued or abandoned for twelve (12) months or for eighteen (18) months during any three (3) year period (except when government action impedes access to the premises), the structure, or structure and premises in combination, shall not thereafter be used except in conformity with the regulations of the zone in which it is located.

14.04.06 RESTORATION

Where non-conforming use status applies to a structure or to a structure and premises in combination, removal or destruction of the structure shall eliminate the non-conforming status of the land;

14.04.07 MOVING

No non-conforming structure or structure and premises in combination shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this Code, except with the approval of the Commission.

14.05 REPAIRS AND MAINTENANCE

On any non-conforming structure or portion of a structure containing a non-conforming use, work may be done on ordinary repairs, or on repair or replacement of non-bearing walls, fixtures, wiring, or plumbing, of the non-conforming structure or non-conforming portion of the structure as the case may be, provided that such is approved by the Commission.

If a non-conforming structure or portion of a structure containing a non-conforming use becomes physically unsafe or unlawful due to lack of repairs and maintenance, and is declared by any duly authorized official to be unsafe or unlawful by reason of physical condition, it shall not thereafter be restored, repaired or rebuilt except in conformity with the regulations of the zone in which it is located.

Nothing in the Zoning Code shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official; however, such structural alteration shall in all cases be approved by the Commission.

14.06 USES UNDER SPECIAL EXCEPTION PROVISIONS NOT NON-CONFORMING USES

Any use which is permitted as a special exception in a zone under the terms of this code shall not be deemed a non-conforming use in such a district, but shall without further action be considered a conforming use.

14.07 CHANGE OF NON-CONFORMING USE CERTIFICATE

14.07.01 REQUEST FOR CHANGE OF NON-CONFORMING USE

Applications for the grant of Change of Non-Conforming uses shall be filed with the Commission on forms provided therefor. The applicant shall submit plans and other data required in Section 14.07.02.

SECTION 44 SPECIAL EXCEPTIONS

44.01 PURPOSE

The development and execution of a comprehensive Zoning Code are based upon the division of the City into zones, with which the use of land and structures and the bulk and location of structures in relation to the land are substantially uniform. It is recognized, however, that there are certain uses and features which, because of their unique characteristics, cannot be distinctly classified or regulated in a particular zone or zones, without consideration in each case of the impact of such uses and features upon neighboring uses and the surrounding area compared with the public need for them in particular locations. Such uses and features are, therefore, treated as Special Exceptions.

44.02 REQUEST FOR SPECIAL EXCEPTIONS

Applications for the grant of Special Exceptions shall be filed with the Commission on forms provided therefore. The applicant shall submit plans and other data required in Section 44.03, and shall be consonant of the Commission's findings criteria in Section 44.04.

44.03 SUBMISSION REQUIREMENTS

Each application for a Special Exception shall be submitted to the Commission at least ten (10) days prior to a regularly scheduled meeting and shall be accompanied by such fee required to cover the cost of advertising and sending notices in connection with the application. The Applicant shall furnish as part of such application the following:

44.03.01 SITE PLAN

Site Plan as specified in SECTION 55.  
Site Plan Approval Requirement.

44.04.02 ADVERSE EFFECTS

The proposed use will not affect adversely the health and safety of residents or workers in the area and will not be detrimental to the use or development of adjacent properties or the general neighborhood; and

44.04.03 VISIBILITY AND ACCESSIBILITY

The proposed use will not preempt frontage on a major highway in such a manner so as to substantially reduce the visibility and accessibility of an interior commercial area zoned or proposed for commercial use which is oriented to the same highway; and

44.04.04 TRAFFIC MOVEMENT

The proposed use will not impair the movement of through traffic along the adjoining thoroughfare through congestion and reduction of street capacities or through storage or back up of vehicles in the public right-of-way while awaiting service on the subject site; and

44.04.05 ORDERLY DEVELOPMENT

The proposed use will not result in a fragmentation of the development pattern, thereby creating unnecessary additional points of vehicular conflict with the adjoining highway and adversely affecting the orderly development of surrounding neighborhoods; and

The proposed use will not tend to depreciate property values and the character and extent of development of adjoining properties; and

44.04.07 PARKING AND LOADING

The proposed use will provide off-street parking and loading facilities in accordance with Section 40 of the Zoning Code; and

44.04.08 COMPLIANCE WITH STANDARDS

The proposed use will meet all the standards set forth herein and set forth in Section 44.08 of the Zoning Code for the type of Special Exception being requested.

(amended) A Special Exception shall be valid for a period of one (1) year, unless a longer time period is specifically established herein. The authorized activity must start during the time period as indicated by the granting of a building permit if building(s) are involved. Such exception shall continue in force and effect if a building permit for such erection or alteration is started within said period. A renewal of said exception may be granted for one additional time period, equal to the original, without a complete new application or public hearing provided the Commission finds that all

5/1/86

requirements continue to be met. However the Commission shall show in its record that it has reviewed an application for renewal of the specified Special Exception and that all appropriate provisions and findings are reaffirmed.

44.07 VIOLATION OF SPECIAL EXCEPTIONS

Whenever the Commission shall find, in the case of any Special Exception heretofore or hereafter granted pursuant to the provisions of this section, that any of the terms, conditions, or restrictions upon which such permit was granted are not being complied with, the Commission may rescind and revoke such permit after giving due notice to all parties concerned. Violation of Special Exception shall constitute a violation of the Zoning Code.

44.07.01 TERMINATION OF GRANTED SPECIAL EXCEPTION USE

In the event a Special Exception land-use is terminated and a proposed new use is not 'use by right' as currently zoned, application may be made to the Commission for approval of a substitute use for the facility.
