

Policy: Vacancies/Opening

The City of Middletown Commission on the Arts understands that the ability to continue to effectively fulfill its ordinance mandate is based on maintaining an active, interested, representative, committed and participatory membership.

To encourage the maintenance of such a membership, it shall be the policy of the Commission, when vacancies or openings arise, to keep the Mayor apprised of any imbalances that do not reflect true community representation.

It shall also be the policy of the Commission to keep the Mayor apprised of citizens who have been recommended to the Commission as being potentially valuable assets to it or who have expressed committed interest in serving on it.

The Commission hereby notes that this policy is in no way to be construed or interpreted as infringing upon any aspect of the Mayoral right of appointment and is hereby adopted as a policy of responsible information presentation that the Commission considers to be in the best interests of Middletown arts and culture and the City of Middletown.
